

What is Glide Glass®

Non-Stick Easy-Clean Glass

Glide Glass® is proprietary protective nano coating developed by Oben.

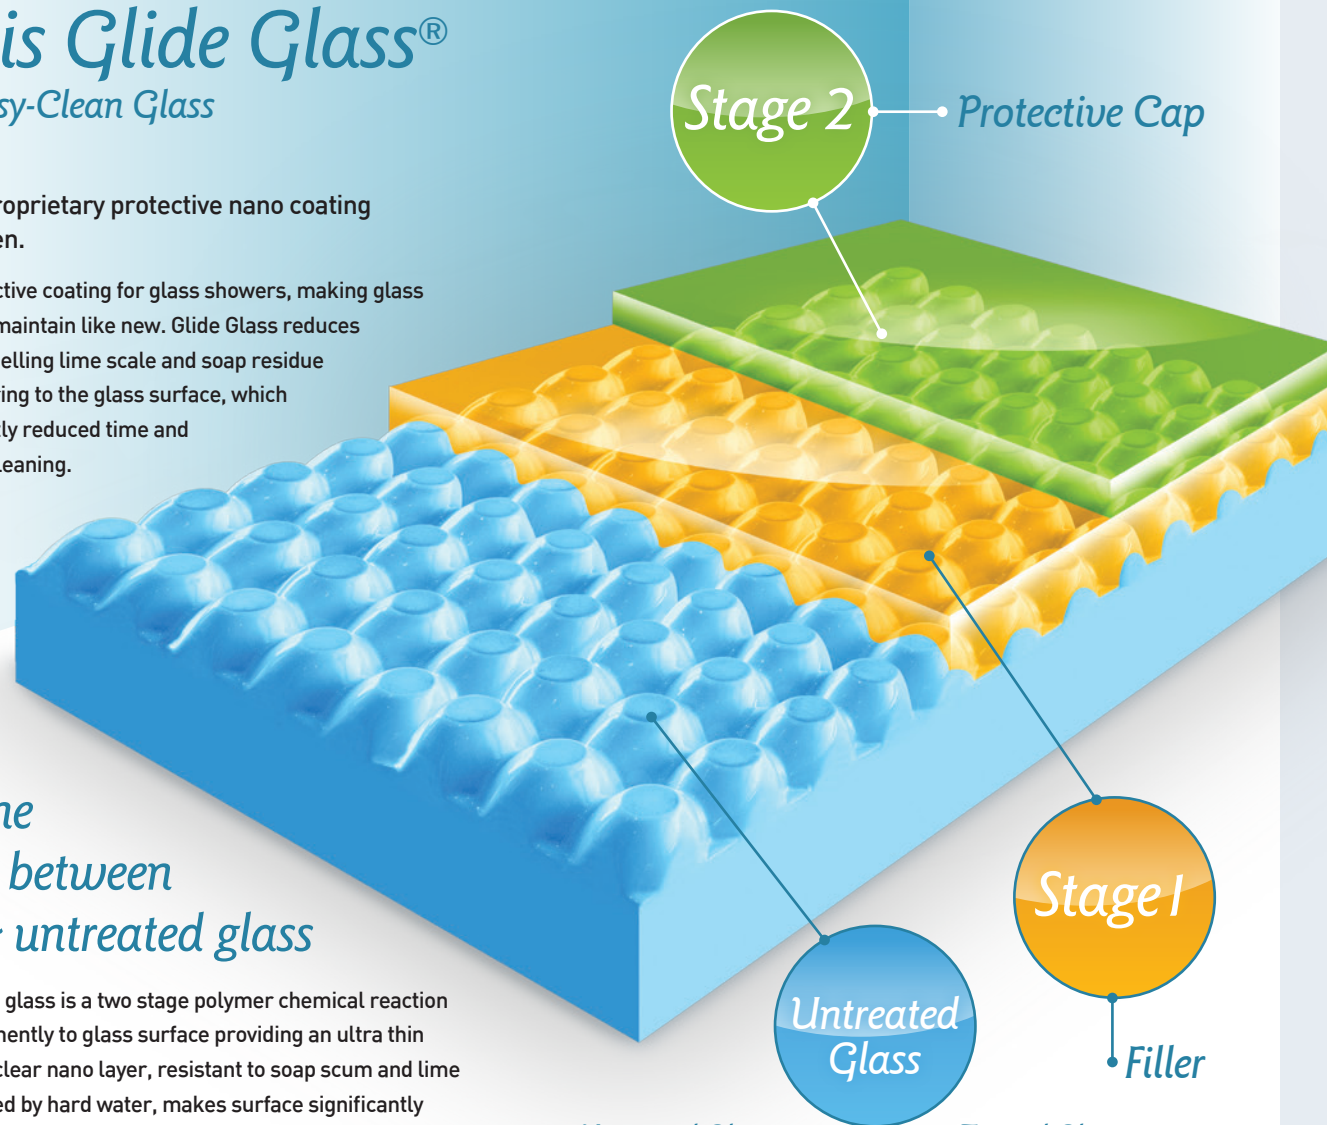

A long lasting protective coating for glass showers, making glass easier to clean and maintain like new. Glide Glass reduces cleaning time by repelling lime scale and soap residue deposits from adhering to the glass surface, which results in significantly reduced time and effort required for cleaning.

What is the difference between treated & untreated glass

Glide Glass® treated glass is a two stage polymer chemical reaction which bonds permanently to glass surface providing an ultra thin protective optically clear nano layer, resistant to soap scum and lime scale deposits caused by hard water, makes surface significantly easier to clean and maintain.

Makes glass easier to clean and maintain like new.

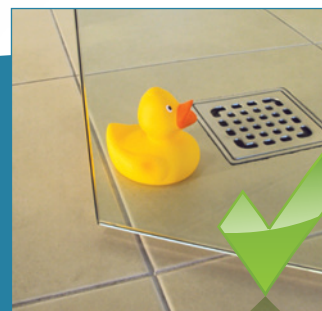

- Highly water repellent (Hydrophobic)
- Resistant to Hard water
- Less frequent cleaning
- Reduces mould & bacteria build up

Untreated Glass

Treated Glass

Frequently asked questions

1. How long will Glide Glass® last / Warranty

Glide Glass® has a Life Time Warranty provided it is used in accordance with Oben's Care & Maintenance instructions*.

Glide Glass® will not peel, chip, crack or blister for the life of the surface to which it is applied.

2. Does Glide Glass® change the colour of the glass

Glide Glass® nano coating does not change colour of the glass in fact it enhances glass surface making it more brilliant and optically clear.

3. How much does Glide Glass® cost

The average price for Glide Glass® nano application per shower is \$150 - \$250 *Price includes Consumer after Care kit. Minimum application area 2 SqM*

4. What shouldn't I use on Glide Glass® surface

Do not use the following products or chemicals on Glide Glass® surfaces!

- Acid or solvent based cleaners
- Abrasive powders or liquid abrasive cleaners
- Bleach or bleach based cleaners
- Steel or abrasive Teflon pads

*Refer to Oben Care & Maintenance instructions

5. Can Glide Glass® be applied to an existing shower glass?

"Yes"

How ever Glide Glass® application is subject to evaluation and extent of damage caused by lime scale and soap residue build up on glass surface. Additional labour costs will apply for glass polishing and recovery.

Glide Glass® is specifically designed for NEW glass applications!!

Non-stick,
easy-clean glass

How do I clean Glide Glass® surface

For optimum glass protection Oben includes a Care & Maintenance Kit for maintaining glass like new. Simply use the squeegee provided to blade down glass after each shower use.

After care
maintenance kit

Is Glide Glass® suitable for any other surfaces?

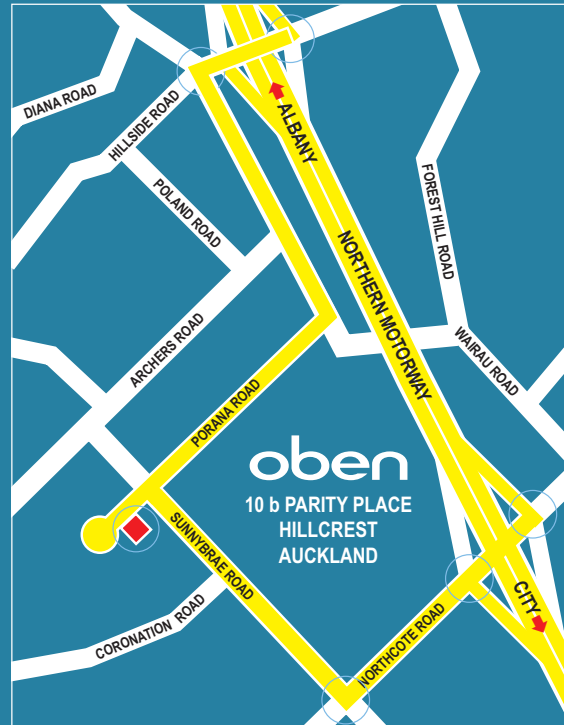

Glide Glass® can also be applied to most surfaces containing silica.

Suitable for use on Ceramic tile, Porcelain & Granite surfaces and existing residential windows and balustrades providing a non-stick easy-clean surface.
